## **The King Ranch Quarter Horses And Something Of The Ranch And The Men That Bred Them Introduction**

### **The King Ranch Quarter Horses**

The fabled King Ranch of South Texas was renowned for its breed of horses, the King Ranch Quarter Horses. Here is the complete story of the ranch and its horses, how they were bred, and what they have achieved. We meet the Old Sorrel, the horse without a name who became the foundation stallion of the ranch Quarter Horses. The King Ranch produced winning show horses (Hired Hand, Anita Chica, Peppy) and race horses (Miss Princess, Nobody's Friend) and, above all, top-quality cow horses famed for their levelheadedness and ability to work in close partnership with their riders. Today they and their descendants are working cattle and winning competitions worldwide. For those who love Quarter Horses, and especially for those who own a Quarter Horse descended from the King Ranch and wish to know its history, this book will be a treasured volume.

Most Quarter Horse breeders and breed experts believe that in the production of great Quarter Horses one should never underestimate the importance of the dam. They are convinced that, in the long run, "the distaff side of the pedigree is the one to watch." They agree that one reason for the eminence of the Quarter Horse in racing, show, arena, and breed competition is the quality of the dams who helped found the breed and give it the unique conformation and blazing speed on the short track. This book, filled with treasured anecdotes and track legends, will join its companion volume on the sires as an indispensable source for Quarter Horse breeders, owners, and racetrack and rodeo enthusiasts, as well as for historians of the horse and its role in the Americas.

### **Foundation Dams of the American Quarter Horse**

Here for the first time is a digest of known information about the stallions whose descendants appear in the early volumes of the American Quarter Horse Association studbook. Robert M. Denhardt, a former officer in the American Quarter Horse Association, spent many years tracking down the bloodlines of the foundation sires, their pedigrees, and highlights of their careers. The result is a brief but comprehensive alphabetical listing of the stallions that made the Quarter Horse one of the most exciting and popular breeds of horses in the Americas today.

### **Foundation Sires of the American Quarter Horse**

This book is the first comprehensive history of an admirable American breed of horse that has at last come into its own. It is a ready reference for the breeder and a broadly based account for the historian of the equine

species. The author searches out the past, describing the origin of painted horses in ancient times, their movement across Europe, their arrival in the Americas, and their acceptance in the 1960s as a distinctive breed. Accompanying his text with many illustrations, the author discusses breed characteristics, bloodlines, and color patterns. He emphasizes the genetic principles involved in breeding authentic Paints. Included are descriptions and charts of markings of the tobiano, the overo, the criulo, the criollo, and-that fascinating occurrence-the Paint cropout.

Historians of the American West, perhaps inspired by NAFTA and Internet communication, are expanding their intellectual horizons across borders north and south. This collection of essays functions as a how-to guide to comparative frontier research in the Americas. Frontiers specialist Richard W. Slatta presents topics, techniques, and methods that will intrigue social science professionals and western history buffs alike as he explores the frontiers of North and South America from Spanish colonial days into the twentieth century. The always popular cowboy is joined by the fascinating gaucho, llanero, vaquero, and charro as Slatta compares their work techniques, roundups, songs, tack, lingo, equestrian culture, and vices. We visit saloons and pulperias as well as plains and pampas, and Slatta expertly compares clothing, weather, terrain, diets, alcoholic beverages, card games, and military tactics. From primary records we learn how Europeans, Native Americans, and African Americans became the ranch hands, cowmen, and buckaroos of the Americas, and why their dependence on the ranch cattle industry kept them bachelors and landless peons.

The King Ranch has been the subject of international fascination for over a century. Author Mona Sizer brings the great ranch's history to life in this warm-hearted story of love, passion, and power never before seen on this continent. Added to the story are terrifying tales of ancient ghosts that still imbue many of the secret places on the ranch with a sense of mystery and fear.

In this tribute to a pioneer conservationist, Duane M. Leach celebrates the life of an exceptional ranch manager on a legendary Texas ranch, a visionary for wildlife and modern ranch management, and an extraordinarily dedicated and generous man. Caesar Kleberg went to work on the King Ranch in 1900. For almost thirty years he oversaw the operations of the sprawling Norias division, a vast acreage in South Texas where he came to appreciate the importance of rangeland not only for cattle but also for wildlife. Creating a wildlife management and conservation initiative far ahead of its time, Kleberg established strict hunting rules and a program of enlightened habitat restoration. Because of his efforts and foresight, by his death in 1946 there were more white-tailed deer, wild turkey, bobwhite quail, javelinas, and mourning dove on the King Ranch than in the rest of the state. Kleberg's legacy lives on at the Caesar Kleberg Wildlife Research Institute in Kingsville, where a research program he helped found has gained recognition far beyond the

pastures of Norias.

## **Caesar Kleberg and the King Ranch**

Founded before the Civil War, the King and Kenedy Ranches have become legendary for their size, their wealth, and their endless herds of cattle. A major factor in the longevity of these ranches has always been the loyal workforce of vaqueros (Mexican and Mexican American cowboys) and their families. Some of the vaquero families have worked on the ranches through five or six generations. In this book, Jane Clements Monday and Betty Bailey Colley bring together the voices of these men and women who make ranching possible in the Wild Horse Desert. From 1989 to 1995, the authors interviewed more than sixty members of vaquero families, ranging in age from 20 to 93. Their words provide a panoramic view of ranch work and life that spans most of the twentieth century. The vaqueros and their families describe all aspects of life on the ranches, from working cattle and doing many kinds of ranch maintenance to the home chores of raising children, cooking, and cleaning. The elders recall a life of endless manual labor that nonetheless afforded the satisfaction of jobs done with skill and pride. The younger people describe how modernization has affected the ranches and changed the lifeways of the people who work there.

Texas's King Ranch has become legendary for a long list of innovations, the most enduring of which is the development of the first official cattle breed in the Americas, the Santa Gertrudis. Among those who played a crucial role in the breed's success were Librado and Alberto "Beto" Maldonado, master showmen of the King Ranch. A true "bull whisperer," Librado Maldonado developed a method for gentling and training cattle that allowed him and his son Beto to show the Santa Gertrudis to their best advantage at venues ranging from the famous King Ranch auctions to a Chicago television studio to the Dallas–Fort Worth airport. They even boarded a plane with the cattle en route to the International Fair in Casablanca, Morocco, where they introduced the Santa Gertrudis to the African continent. In *The Master Showmen of King Ranch*, Beto Maldonado recalls an eventful life of training and showing King Ranch Santa Gertrudis. He engagingly describes the process of teaching two-thousand-pound bulls to behave "like gentlemen" in the show ring, as well as the significant logistical challenges of transporting them to various high-profile venues around the world. His reminiscences, which span more than seventy years of King Ranch history, combine with quotes from other Maldonado family members, co-workers, and ranch owners to shed light on many aspects of ranch life, including day-to-day work routines, family relations, women's roles, annual celebrations, and the enduring ties between King Ranch owners and the vaquero families who worked on the ranch through several generations.

The Best American Magazine Writing 2022 presents a range of outstanding writing on timely topics, from in-depth reporting to incisive criticism: Kristin Canning calls for a change in how we talk about abortion (Women's Health), and Ed Yong warns us about the next pandemic (The Atlantic). Matthieu Aikins provides a gripping eyewitness account of the Taliban's seizure of Kabul (New York Times Magazine). Heidi Blake and Katie J. M. Baker's "Beyond Britney" examines how people placed under legal guardianship are deprived of their autonomy (BuzzFeed News). Rachel Aviv profiles a psychologist who studies the fallibility of memory—and has testified for defendants including Harvey Weinstein and Bill Cosby (The New Yorker). The anthology includes dispatches from the frontiers of science, exploring why Venus turned out so hellishly unlike Earth (Popular Science) and detailing the potential of NASA's James Webb Space Telescope (Quanta). It features celebrated writers, including Harper's magazine pieces by Ann Patchett, whose "These Precious Days" is a powerful story of friendship during the pandemic, and Vivian Gornick, who offers "notes on humiliation." Carina del Valle Schorske depicts the power of public dance after pandemic isolation (New York Times Magazine). And the NBA icon Kareem Abdul-Jabbar lauds the Black athletes who fought for social justice (AARP the Magazine). Amid the continuing reckoning with racism, authors reconsider tarnished figures. The Black ornithologist and birder J. Drew Lanham assesses the legacy of John James Audubon in the magazine that bears his name, and Jeremy Atherton Lin questions his youthful enthusiasm for Morrissey (Yale Review). Jennifer Senior writes about memory and the lingering grief felt for a friend killed on 9/11 (The Atlantic). The collection concludes with Nishanth Injam's story of queer first love across religious boundaries, "Come with Me" (Georgia Review).
